

Wastewater Utility Green Power Report

May 2012

Electricity Generated in May: **55,746 kWh (kilowatt hours)**

This amount of electricity would have cost **\$3,902** if it had been purchased from Duke Energy.

19,282 gallons of grease were processed in our digesters for the month.

17 tons of food scraps were processed this month.

18% of our plant's power was generated on-site this month.

The City of West Lafayette's Wastewater Utility has pledged to generate at least 10% of its electricity on-site as Indiana's first wastewater plant to become an EPA Green Power Partner.
